## MATCHING GAME AND ACTIVITIES

### Card Prep

Print, laminate, and cut out cards.

### Matching Game for Whole Class

Preparation: Place picture cards with small pictures around the room and put the cards with large pictures in a box.

Directions:

1. Gather the children together and explain that they are going to take turns hunting for pictures. They will pick a card and use a magnifying glass to help them find the matching picture somewhere in the room.
2. Have the first child pick a card from the box. As a class, name the picture.
3. Give the child a magnifying glass and have them walk around the room looking for the matching picture.
4. When they find the match, they can bring both cards back to the circle and return the magnifying glass and the cards to the teacher.
5. For a quicker game, have two children take their turns at the same time.

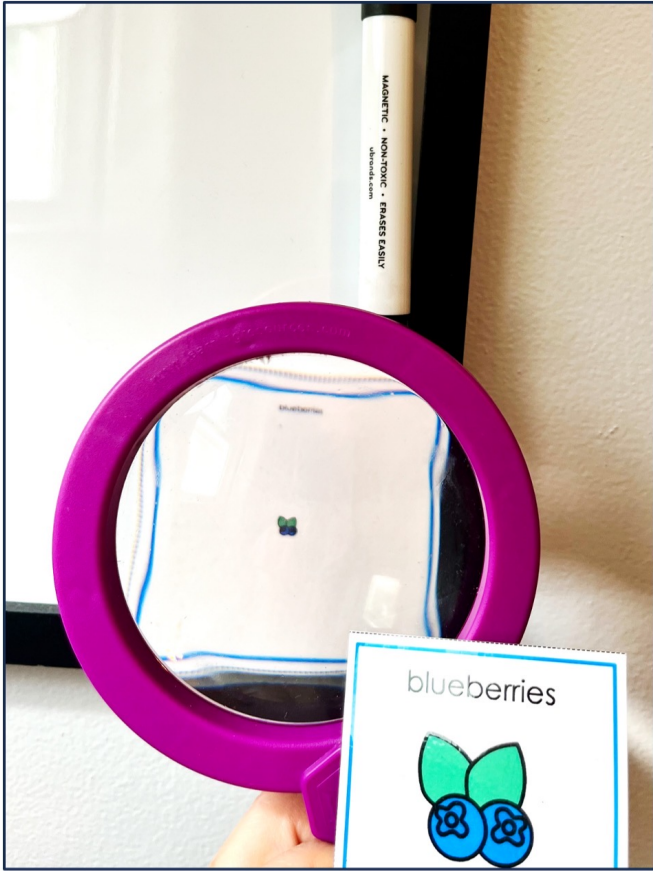

Extension: Once children have learned the game, you can set out the cards for them to play independently.

### Table Activities

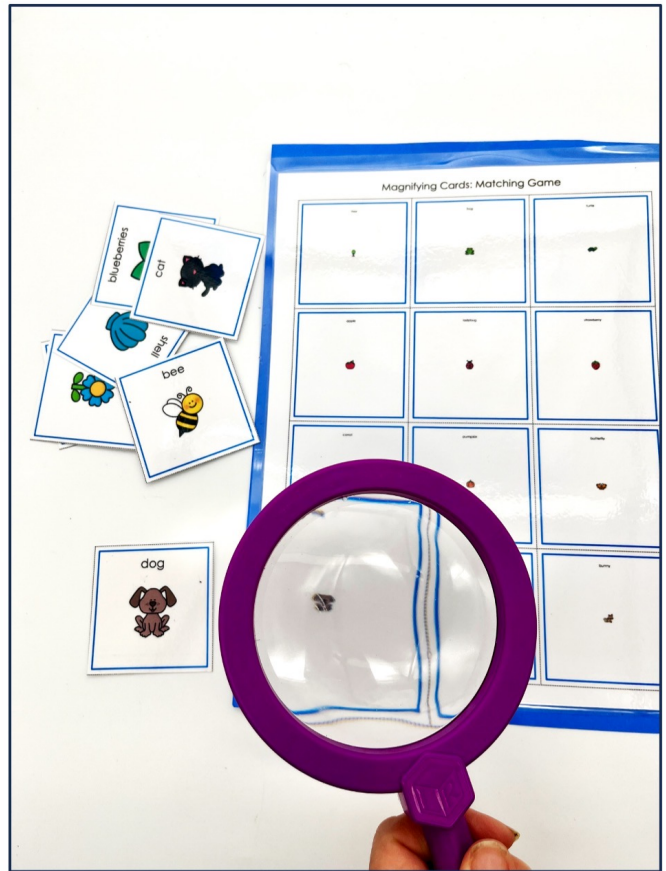

- Set out the cards faceup on a table. Children can use a magnifying glass to examine the pictures and find the matches.
- Play a memory game by placing the cards facedown on the table. Children take turns turning over two cards to see if they match. If they do, they keep the cards. If the cards don't match, the child will turn the cards facedown, and the next child takes a turn.
- Print out copy of the full pages of small pictures and place on the table. Place the large picture cards on the table. Children will pick a card from the table and see if they have the small picture on their page. If so, they can place card on top of the large picture.
